FLOOD OF VAST MAGNITUDE  
SWEEPING DOWN THE MISSISSIPPI RIVER.

BEING FELT AT ST. LOUIS

BUILDINGS ALONG THE WATER  
FRONT ARE PRACTICALLY  
ABANDONED.

St. Louis, June 6.—The terrific force and the destructive magnitude of the great flood that is sweeping down the Mississippi is steadily increasing in volume, surmounting and demolishing barriers of protection and greedily lapping at property and reaching for lives as it resistlessly extends farther and farther beyond the ordinary river confines, and is now being felt in St. Louis and vicinity to an alarming extent. The flood is the one absorbing topic of conversation and throngs of people congregated upon Eads bridge and fill the street approach to the flooded levee to view the torrent of muddy water that is swirling past St. Louis and spreading out over the lowlands with devastating energy.

At 7 o'clock Friday night the stage had reached 34.2 feet, a rise of seven feet since 7 o'clock in the morning. Government Forecaster Bowie has issued a bulletin predicting a stage of thirty-five feet by Saturday noon thirty-six by Sunday and thirty-seven feet on Monday.

### Still on the Rise.

The Mississippi north of the mouth of the Missouri is rising still, but the rapidity of the rise has been diminished because of the breaks in levees. The great Sny levee, which extends for miles along the Illinois shore from Hannibal northward, broke Friday and the waters went rushing through the crevasse to devastate thousands of acres of fertile farming lands. Possibly some lives may be lost.

Later in the day the flood forced a passage through the levee at Madison Ill., just north of St. Louis. This levee is fifteen miles long and for days men have been hard at work endeavoring to strengthen it, but the river found its weak point in sewerage and the water broke through like a geyser. Carloads of sand bags and all other available material were hurled to the break and dumped in, but the forces of the flood washed out the filling and the break constantly widened. West Granite, a town of 2,000 people, is in a depression between the levee and a railroad embankment. Warning had been given and the inhabitants had sought safety when the deluge came. It is believed all escaped, but the town is under water.

### Buildings Practically Abandoned.

In St. Louis the buildings along the river front have practically been abandoned as the first floors are over a foot under water which stands two feet deep on the top of the steamboat levee.

In South St. Louis fully 100 families, living near the mouth of river Des Peres were forced to leave their houses by the advancing waters and many families living in houseboats fled to land for shelter. Men, and in some cases, even women, worked to their waists in the swirling waters, with ropes and wire cables anchoring their homes to the railroad tracks and to trees on high ground. Wagons were backed into the river up to their beds and furniture loaded in. Many families had remained in their homes even after the water had risen several feet deep in the first floors, but the rising flood tide began to sway the houses threateningly and the occupants were driven forth.

### Situation Becomes Critical.

At midnight the river stage registered 34.6 feet, a rise of almost five inches since 7 o'clock.

Another break occurred at midnight in the levee at West Granite and fifty families living in the vicinity were forced to flee for their lives. The entire town is now inundated.

The situation on the East Side of the river is now reported as critical. Breaks in levees and railroad embankments are expected hourly. So far no loss of life has been reported.

A small break occurred in the Chicago and Alton railroad embankment at Mitchell, twelve miles above East St. Louis, and flooded 1,000 acres.

The interrupted train service has very materially improved, although more or less delay attends their running.

### PROPERTY REOCCUPIED.

Flood Recedes From One-Tenth of Flooded Area at Kansas City.

Kansas City, Mo., June 6.—The water has receded from one-tenth of the flooded area and the uncovered property has been promptly reoccupied. The territory reclaimed included the Union station and a portion of the railroad yards. The recession of the flood has caused a lively demand for unskilled laborers to repair railroads, clean out buildings and carry away rubbish, and with the Kansas harvest near it is expected that every man willing to work will have steady employment for many weeks to come.

Two bodies were found under a railroad coach in the West bottoms during the day. They were those of a Greek railroad laborer and a negro

cook. The verified death list now contains ten persons.

George Gould has sent \$5,000 to the Kansas City, Kan., relief committee and President Burt of the Union Pacific sent \$1,000. There were other liberal contributions of money and supplies and the total cash received in both cities is about \$75,000.

### Chloroformed and Robbed.

Seattle, Wash., June 6.—Mrs. Robert Sector was chloroformed and robbed of about \$1,900 in her apartments in the McCombs block.

### BACK IN WASHINGTON.

President Roosevelt Arrives Safely Home From Long Trip.

Washington, June 6.—President Roosevelt returned to Washington at night from his memorable trip of over two months throughout the West. He was given a hearty reception by the people of the capital. The president cordially responded to the greetings given him and on the drive from the Pennsylvania station to the White House, repeatedly stood up in his carriage and waved his hat and bowed his acknowledgments to the people that lined the street. He looked the picture of health.

Many government officers met the president at the station. Secretary Payne threw his arms about Mr. Roosevelt and whispered to him. When the president reached home, he received the high school cadets, who had formed his escort from the railway station to the White House. The marine band played in the back yard, and there many assembled to welcome the traveler home. The president went to the back porch and thanked the people for their welcome.

President Roosevelt during the sixty-five days of his trip, traveled more than 14,000 miles by railroad, several hundred miles by stage coaches and carriages, more than 300 miles on horseback and as much as 100 miles on foot.

He made 265 speeches. The schedule arranged by Secretary Loeb was carried out to the dot.

Secretary Hay called at the White House shortly after the president's arrival, but stayed only a few minutes. The president spent the evening with his family.

Secretary Hay will bring before the president the Russian situation, both as regards the Manchurian and Kishineff incidents.

### THREATENED TO LYNCH HIM.

Mob of Angry Men Tried to Get Alleged Wife Murderer.

Tomah, Wis., June 6.—A mob of several hundred angry citizens and farmers of Tomah and vicinity in Monroe county gathered here bent on taking the life of Samuel Montgomery, who is charged with the murder of his wife. Montgomery was taken out of the Tomah jail and hurried to Sparta on a freight train.

Montgomery and his wife, who lived near Warrens, were driving along a lonely country road, when Mrs. Montgomery's death occurred. With the dead body of his wife lying in the buggy Montgomery drove to the nearest town on a gallop and there claimed that they had been in a runaway and his wife's neck was broken by a fall out of the buggy. His stories were so conflicting that he was arrested.

At the coroner's inquest Friday, testimony was so overwhelmingly against Montgomery and the sentiment expressed in the court room of such a dangerous character that the prisoner was taken back to jail before the examination was concluded. An angry mob soon began to gather around the front entrance to the jail, and then the authorities sneaked their prisoner out of the back door, reached a western-bound freight train and took the prisoner to Sparta, where he was landed safely in jail and all is reported quiet there. He will have a preliminary trial on the charge of murder next week. The governor did not call out troops to prevent a lynching.

The coroner's jury brought in a verdict that the deceased came to her death from having her neck broken by violence in being beaten, bruised and ill-treated by her husband, Samuel Montgomery, with intent to murder.

### GAMBLING HOUSE RAIDED.

Three Hundred and Fifty Men Arrested at New York.

New York, June 6.—Two hundred white men and 15 negroes were arrested in a raid by the police on "The" Allen's famous place in Sixth avenue. Entrance was forced through front and rear doors by detectives with axes. The police used their revolvers in effecting arrests. They appropriated a large number of slips and racing sheets as well as a great quantity of poolroom paraphernalia. Some of the prisoners tried to escape by breaking through screens in the rear windows, but these were caught by the police that guarded the rear. On the third floor of the house was found a poolroom in full operation, but all the visitors were negroes. Five patrol wagons made several trips to the police station loaded each time with prisoners.

### MAY CLASSIFY MAIL.

Court Decision Gives Postoffice Discretionary Powers.

Washington, June 6.—The court of appeals of the District of Columbia reversed the lower court and sustained the contention of the government that the postmaster general was empowered by law to exclude from the mails at second-class postal rates the publication known as the "Riverside Literature Series," issued by Houghton, Mifflin & Co. of Boston, and also "Masters in Music," published by the Bates & Guild company of Boston. The opinion is sweeping in the comprehensive discretion it gives to the postoffice department to classify mail matter.

## BECOMES PERPETUAL

INJUNCTION AGAINST THE COAL  
OPERATORS OF TWO STATES  
MADE PERMANENT.

SOLD THROUGH ONE AGENCY

ADMITTED THEY HAD ENTERED  
INTO A CONTRACT TO FIX  
SCALE OF PRICES.

Chicago, June 6.—A perpetual injunction preventing any combination of certain coal operators in Illinois and Indiana to sell their wares through one distributing agency and regulate prices was issued by Judge Kohlsaat Friday. This was the end of the coal case which attracted much attention last winter, when the operators were indicted. The indictments were quashed and action later begun by District Attorney Bethea in the United States court. The companies included in the case and mentioned in the injunction are: Crescent Coal and Mining company, Brullette Creek Coal company, Wabash Valley Coal company, Oak Hill Coal and Mining company, Coal Bluff Mining company, Glen Oak Coal and Mining company, Nevins Coal company, Parke County Coal company, Indiana Fuel company, McClellan Sons & Co.

The settlement of the case was agreed on at a conference in the judge's chamber. The operators had been bound by a temporary injunction since March 19 last.

The order of Judge Kohlsaat sets forth that the defendants entered into a contract to fix prices and to sell through one distributing agency, as the operators themselves admitted. The court finds that the defendants had ceased to operate under this agreement prior to the filing of the government's bill. Then, declaring that it is not the desire of the defendant to carry out the contract in future, the court orders that a perpetual injunction issue against a continuance of the agreement.

### INDICTMENTS RETURNED.

Ohio Men Charged With Using Mails to Work Land Frauds.

Columbus, O., June 6.—Indictments were returned by the United States grand jury against John A. Cobb of Bainbridge, O., and W. H. H. Miller, S. E. Struble and G. W. J. Woltz of Newark, O., for misuse of the mails in connection with alleged fraudulent land deals. Several other men, who have not yet been arrested, are under indictment on a similar charge.

The government inspectors who collected the evidence presented to the grand jury claim to have unearthed alleged land swindles of gigantic proportions which they say were carried on by men operating in widely separated localities. Large tracts of timber land for which alleged fraudulent deeds were given to purchasers were offered for sale in Tennessee, Kentucky, West Virginia, Missouri, Texas and Michigan.

Victims of the alleged swindles, it is said, are to be found in almost every state. Witnesses have been summoned from Tennessee, New Mexico, Michigan, Kentucky, Missouri, West Virginia, Iowa and Arkansas.

### SHOOK HANDS AND DIED.

Texans Have a Fatal Fight and Then Become Reconciled.

El Paso, Tex., June 6.—Two men are dead and another is dying as the result of a fight at Eagle Lake, where City Marshal Kinard and William McDow shot each other to death, and Pierce Hammond, a bystander, received a mortal wound. Kinard was trying to quiet McDow, when McDow shot him. Kinard fell dying, but raised himself and shot McDow.

As he fell McDow said: "We are both done for, let us die friends." They shook hands and died.

### HEAVY RAIN FALLS.

Mississippi River Rises Four Inches at Burlington, Ia.

Burlington, Ia., June 6.—The Mississippi river at Burlington has risen four inches in twenty-four hours here. The gauge marks fifteen feet above the low water mark of 1864. A heavy rain fell south of Burlington causing a landslide, which covered the Chicago, Burlington and Quincy tracks and delayed traffic for some time. Culverts are washed out and water stands over the tracks of the Burlington line at Wescott.

### Reduction of All Elements.

Berlin, June 6.—Professor Sir William Crookes, before the international chemical congress, dealt with the possibility of reducing all the elements of matter to a one ultimate, by finding that each and every element is resolvable into a single form of energy. The theory is said to be an advance along the line of a recent discovery by Professor Babcock of Wisconsin.

### Passengers Slightly Injured.

Pittsburg, June 6.—A traction car on the Wilmerding branch of the Pittsburg railway company jumped the track near the Glenwood bridge and all of the sixteen passengers aboard were slightly hurt.

### FOR INDUSTRIAL PEACE.

New York Building Trades Employers' Association Has a Scheme.

New York, June 6.—The Building Trades Employers' association has a scheme of arbitration for securing industrial peace. The plan has been sent out to all employers and to all unions of labor in the building trades.

The plan provides that when employers have a trade agreement with their employees there shall be organized a trade arbitration board, where all difficulties in trade can be discussed and adjusted and, in addition, a higher court or general arbitration board for the settlement of all disputes. The former board is to consist of two arbitrators chosen by each association represented in the Building Trades Employers' association and two from each union whose employers are represented in the employers' association. From this body of general arbitrators not fewer than two from the employers' association and two from the union shall constitute a court of appeals.

Strikes or lockouts are prohibited before the matter in dispute has been submitted to the general arbitration board for settlement.

### TRUCE DECLARED.

Chicago Hotel Employees Return to Work Pending Settlement.

Chicago, June 6.—A truce was declared between the hotel proprietors and their employees at night. No active steps will be taken by either side for two days while committees of the hotel men and labor leaders will meet and endeavor to arrange an amicable settlement of the difficulty. The employees who were ordered out on strike Thursday and Friday all returned to work pending a settlement of the trouble.

A meeting between the officers of the employees' union with the restaurant proprietors has been called for today, when a similar agreement, it is expected, will be reached.

### LAUNDRY STRIKE SETTLED.

Both Sides Sign an Agreement Submitting Differences to Arbitration.

Chicago, June 6.—The laundry strike, which was begun on May 1, was settled Friday night and the strikers will return to work on Monday. All grievances are to be submitted to a board of arbitration consisting of three representatives of the employees and a like number of the owners. These six are to choose a seventh member. Both sides have signed the agreement and the decision of the board is to be final.

The unions demanded the absolute unionization of the shops, insisting that no nonunion men should be employed on any pretext. They have given this up.

### MAINE FOREST FIRES.

Loss of Life and Great Destruction of Property Mark Their Path.

Portland, Me., June 6.—Reports from every section in Northern Maine confirm the first reports of tremendous loss to lumbering and other interests from forest fires. In addition one town has been destroyed, hundreds of buildings have been burned in all parts of the state and at least two lives lost. Lumbering interests are hard hit by this misfortune, following close on the lack of snow in the woods this winter and the drought which caused the loss of more than 25,000,000 feet of logs.

Patten has been surrounded by fires at close range for forty-eight hours. Eight townships have been burned over, causing a loss of \$250,000 to the lumber interests there.

### FIRES WELL IN HAND.

Situation in the Adirondack Regions Satisfactory.

Glens Falls, N. Y., June 6.—Reports received at the offices of the lumber companies which have large interests in the Adirondack regions, where the fires are fercest, say that the fires are well in hand and that the situation is satisfactory.

Lakewood, N. J., June 6.—The forest fires in this vicinity have somewhat abated. Large tracts of timber have been damaged.

Seneca Falls, N. Y., June 6.—A telegraph order has been received here from William Rockefeller, directing that a steam fire engine and hosecart with 2,000 feet of hose and a quantity of coal be sent by express to his summer home in the Adirondacks.

### SEVEN PERSONS KILLED.

Hungarian Village of Helling Destroyed by Fire.

Vienna, June 6.—The village of Helling, Hungary, was destroyed by fire Thursday night while a violent storm raged. Nearly a hundred houses were burned and an old woman and six children were killed.

### Prominent Young Man Killed.

Lexington, Ky., June 6.—William Boston, aged twenty-two, one of the most prominent young men in this county, was found dead in the yard of his home, five miles from the city, with a bullet hole in his forehead. The presumption is that he was shot by burglars. Bloodhounds will be used to track the murderer.

### Train Supposed to Be Wrecked.

Phoenix, Ariz., June 6.—An explosion was heard here at night in the direction of Alhambra. A freight train on the Santa Fe, Prescott and Phoenix has not arrived and the wires are down. The supposition is that a car of dynamite on the freight train blew up.

### DARED TO HIS DEATH.

Minnesota Boy Loses His Life in Accepting a Challenge.

Crookston, Minn., June 6.—The body of Bert Davis, a seventeen-year-old son of Fred Davis, who was drowned here Thursday evening, was recovered Friday. He was found with his arms tightly gripping a piling, several feet under water.

He met his death while trying to learn to swim. He was in a boat, and several of the other boys with him dared him to dive, threatening if he did not to capsize the boat. He dived and never came up.

### Trade of the Week.

New York, June 6.—Dun's Weekly

Review of Trade says the elements provided the only unfavorable developments of the week and while these may not prove far reaching in their effect, their first result is seen in greater conservatism. Trade conditions at the leading cities are generally encouraging and farm products rule strong.

Mississippi River Rises Four Inches at Burlington, Ia.

Burlington, Ia., June 6.—The Mississippi river at Burlington has risen four inches in twenty-four hours here. The gauge marks fifteen feet above the low water mark of 1864. A heavy rain fell south of Burlington causing a landslide, which covered the Chicago, Burlington and Quincy tracks and delayed traffic for some time. Culverts are washed out and water stands over the tracks of the Burlington line at Wescott.

### Reduction of All Elements.

Berlin, June 6.—Professor Sir William Crookes, before the international chemical congress, dealt with the possibility of reducing all the elements of matter to a one ultimate, by finding that each and every element is resolvable into a single form of energy. The theory is said to be an advance along the line of a recent discovery by Professor Babcock of Wisconsin.

### Passengers Slightly Injured.

Pittsburg, June 6.—A traction car on the Wilmerding branch of the Pittsburg railway company jumped the track near the Glenwood bridge and all of the sixteen passengers aboard were slightly hurt.

### FOR INDUSTRIAL PEACE.

New York Building Trades Employers' Association Has a Scheme.

New York, June 6.—The Building Trades Employers' association has a scheme of arbitration for securing industrial peace. The plan has been sent out to all employers and to all unions of labor in the building trades.

The plan provides that when employers have a trade agreement with their employees there shall be organized a trade arbitration board, where all difficulties in trade can be discussed and adjusted and, in addition, a higher court or general arbitration board for the settlement of all disputes. The former board is to consist of two arbitrators chosen by each association represented in the Building Trades Employers' association and two from each union whose employers are represented in the employers' association. From this body of general arbitrators not fewer than two from the employers' association and two from the union shall constitute a court of appeals.

Strikes or lockouts are prohibited before the matter in dispute has been submitted to the general arbitration board for settlement.

### TRUCE DECLARED.

Chicago Hotel Employees Return to Work Pending Settlement.

Chicago, June 6.—A truce was declared between the hotel proprietors and their employees at night. No active steps will be taken by either side for two days while committees of the hotel men and labor leaders will meet and endeavor to arrange an amicable settlement of the difficulty. The employees who were ordered out on strike Thursday and Friday all returned to work pending a settlement of the trouble.

A meeting between the officers of the employees' union with the restaurant proprietors has been called for today, when a similar agreement, it is expected, will be reached.

### LAUNDRY STRIKE SETTLED.

Both Sides Sign an Agreement Submitting Differences to Arbitration.

Chicago, June 6.—The laundry strike, which was begun on May 1, was settled Friday night and the strikers will return to work on Monday. All grievances are to be submitted to a board of arbitration consisting of three representatives of the employees and a like number of the owners. These six are to choose a seventh member. Both sides have signed the agreement and the decision of the board is to be final.

The unions demanded the absolute unionization of the shops, insisting that no nonunion men should be employed on any pretext. They have given this up.

### MAINE FOREST FIRES.

Loss of Life and Great Destruction of Property Mark Their Path.

Portland, Me., June 6.—Reports from every section in Northern Maine confirm the first reports of tremendous loss to lumbering and other interests from forest fires. In addition one town has been destroyed, hundreds of buildings have been burned in all parts of the state and at least two lives lost. Lumbering interests are hard hit by this misfortune, following close on the lack of snow in the woods this winter and the drought which caused the loss of more than 25,000,000 feet of logs.

Patten has been surrounded by fires at close range for forty-eight hours. Eight townships have been burned over, causing a loss of \$250,000 to the lumber interests there.

### FIRES WELL IN HAND.

Situation in the Adirondack Regions Satisfactory.

Glen Falls, N. Y., June 6.—Reports received at the offices of the lumber companies which have large interests in the Adirondack regions, where the fires are fiercest, say that the fires are well in hand and that the situation is satisfactory.

Lakewood, N. J., June 6.—The forest fires in this vicinity have somewhat abated. Large tracts of timber have been damaged.

Seneca Falls, N. Y., June 6.—A telegraph order has been received here from William Rockefeller, directing that a steam fire engine and hosecar with 2,000 feet of hose and a quantity of coal be sent by express to his summer home in the Adirondacks.

### SEVEN PERSONS KILLED.

Hungarian Village of Holling Destroyed by Fire.

Vienna, June 6.—The village of Holling, Hungary, was destroyed by fire Thursday night while a violent storm raged. Nearly a hundred houses were burned and an old woman and six children were killed.

### Prominent Young Man Killed.

Lexington, Ky., June 6.—William Boston, aged twenty-two, one of the most prominent young men in this county, was found dead in the yard of his home, five miles from the city, with a bullet hole in his forehead. The presumption is that he was shot by burglars. Bloodhounds will be used to track the murderer.

### Train Supposed to Be Wrecked.

Phoenix, Ariz., June 6.—An explosion was heard here at night in the direction of Alhambra. A freight train on the Santa Fe, Prescott and Phoenix has not arrived and the wires are down. The supposition is that a car of dynamite on the freight train blew up.

### DARED TO HIS DEATH.

Minnesota Boy Loses His Life in Accepting a Challenge.

Crookston, Minn., June 6.—The body of Bert Davis, a seventeen-year-old son of Fred Davis, who was drowned here Thursday evening, was recovered Friday. He was found with his arms tightly gripping a piling, several feet under water.

He met his death while trying to learn to swim. He was in a boat, and several of the other boys with him dared him to dive, threatening if he did not to capsize the boat. He dived and never came up.

### Trade of the Week.

New York, June 6.—Dun's Weekly

Review of Trade says the elements provided the only unfavorable developments of the week and while these may not prove far reaching in their effect, their first result is seen in greater conservatism. Trade conditions at the leading cities are generally encouraging and farm products rule strong.

### Steamer Cedric Detained.

Liverpool, June 6.—The White Star liner Cedric, Captain Lindsay, which sailed Thursday for New York, is detained in the Mersey. It is supposed that it has had an accident to its machinery.

## Kaufman Garments

are Perfection in Fit.

No matter how well a garment is made, no matter how well a garment looks, if it does not fit perfectly the whole effect is spoiled.

Kaufman Garments before sold are fitted to live models. They MUST fit and they DO fit. It makes little difference what price you pay, the fit is the same, every garment guaranteed to fit perfectly, that's the vital point to be considered in the purchase of a suit or overcoat if looks count for anything.

The Kaufman Aldershot (a semi-military cut garment) an unusually clever creation, broad shouldered effects and close fitting at waist. A splendid fitting garment, particularly attractive to dressy young men.

Ask to see them at

Mark's Shoe and Clothing House.

Entered at the post-office at Brainerd, Minn., as second class matter.

QUITE a change in the term of service of township supervisors is made by the new law at the last session of the legislature. Chapter 64 provides that the annual meeting in 1904 there shall be elected three supervisors in each town for three, two and one years, the number of years for which each is elected to be indicated on the ballot and one to be designated and known as chairman. Each year thereafter one shall be elected for three years to this place of the one whose term expires, thus leaving two old members on the board all the time. There shall also be elected one clerk, treasurer, assessor, two justices and constables and an overseer for each road district in the town, but the justices and constables shall be elected only once in two years, except to fill vacancies.

# LABOR ORGANIZATIONS CELEBRATED THE VICTORY

## N. Shop Employees Hold a Big Grand Street Parade

## CELEBRATING VICTORY

## Of Machinists in the Big Strike on the Union Pacific

Just as an illustration of what kind of laboring men Brainerd has, and the spontaneous manner in which they respond to the sentiments of the victories of union labor throughout land, the large demonstration on the streets of city this afternoon served its purpose admirably and the event is indicative of the power that there is in the labor organizations in this city. In almost the twinkling of an eye a parade was arranged that has seldom ever been equalled in the city.

The event was a sort of jollification over the victory of the machinists in the big strike on the Union Pacific. Laboring men all over the land have been watching the progress of this strike with great interest, and when the announcement that the strike had been settled, and that the machinists had won a victory there was a general good feeling throughout the land. This morning at 11:30 o'clock the shops in this city were closed and from that time until way after the noon hour the booming of a cannon was heard throughout the city, although no one at the time except the union men knew what it meant. This afternoon there was a mammoth parade and there were fully eight hundred or one thousand men in line.

The general executive board of the International Association of Machinists, which has been conferring with the management of the Union Pacific for

some time in an endeavor to settle the difficulties between the company and the machinists, have been successful. The strike has lasted eleven months, and the 1,000 men who have been involved will return to work Monday next.

By the terms of settlement the machinists secured the following concessions: Abolition of piecework; a nine-hour day; an increase of 7 per cent in wages over the scale prevailing at the time of the beginning of the strike, every striking machinist to be reinstated upon his own application within sixty days, the company to retain such of its present force as it desires on equal terms with the old employees. By the terms of settlement it will be seen that both parties to the controversy made numerous concessions.

The general executive board consists of Hugh Doran of Chicago, E. L. Tucker of Washington, D. C.; James A. Reynolds, Cleveland, Ohio; Henry F. Geritt, Atlanta, Ga., and M. J. Ford, New York.

The big parade was headed by the Brainerd city band. A large banner was carried with the word "Victory" painted in large black letters, and as the men marched along they were cheered by the crowds which had gathered on the streets. Another large banner bore these words, "We Fought to Teach the Young."

The shops were closed down almost entirely, the foundry closed at noon and nearly every labor organization in the city joined in the demonstration. The parade was seven blocks long and there was a representation of nearly all unions in line.

After the parade the crowd gathered about the band stand on the corner of Front and Sixth streets and Rev. S. W. Hoyer, now a helper in the machine shops in this city himself, delivered a stirring address. He was cheered again and again and at the conclusion was warmly congratulated.

A banquet was arranged for and later in the evening in which the unions will all partake and it is expected that some rousing speeches will be heard then.

## WAS A GREAT SUCCESS.

Brainerd Opera House Comfortably Filled on Event of First Festival of Music by St. Benedict Sisters' Pupils.

The Brainerd opera house was very comfortably filled last night, the event being the festival of music given by the music pupils of the St. Benedict Sisters. The program was a long and varied one and almost every number was heartily enjoyed. The young people, many of them mere tots, showed evidence of having been trained by master hands, and their future development can be appropriately measured by the excellence of the numbers and their rendition.

The program opened with a piano duet, L'Angelus, by Miss Irene Koop and Master Earl Koop. The little people were given hearty applause at the conclusion. Another excellent piano duet by the Misses Agnes and Eveline McCarthy followed. A piano trio, Galop Venitien, by Masters William Wallace and Albert Durham and Miss Agnes McCarthy was heartily enjoyed. Two more piano duets followed, "May Breezes" by Misses Edith and Flora McCullough and "Invitation to the Dance" by the Misses Mamie and Gertrude Koop. A piano duet, German Patrol, by the Misses Eleanor and Mamie Saunders, was heartily enjoyed. Then followed another piano trio by the Misses M. Saunders, May McFadden and Selma Martella. Miss Nellie Mahoney rendered a piano solo in an excellent manner. Maurice Mantor and Charles Howe delighted the audience with a piano duet, "Gypsy Dance" and this was followed by a vocal solo by Miss Ethel Saunders, which was well rendered. Miss Mayme Cullen was heard to good advantage in a piano solo and the same young lady with Miss Bolin gave a splendid piano duet. A diversion from the first part of the program was enjoyed when Miss Edith McCullough gave a recitation, "Miss Incurable" and it was one of the pleasant numbers on the program. Miss Vivian Reilly also gave a recitation "How We Hunted a Mouse" and this was also one of the bright spots in the program. Another piano duet by Misses Bolin and Caulfield and a recitation by Miss M. Saunders, "Mandy's Conversion," by far the best number on the program, and the first part was over.

The second part consisted of a pantomime, "The Annunciation," by Miss Margaret Cunniff which was par excellence. Little Miss Kathleen Graham gave a vocal solo and she did so well that she was compelled to respond with an encore. She has a sweet voice and sings beautifully. The comic song, "Kentucky Babe," by Miss Vivian Reilly and a chorus made a great hit. Easily one of the best things on the program was the gossip pantomime by several little tiny girls. They were dressed as old grandmas and went through the various parts with perfect ease and grace. "King Richard's Dream" was given a very creditable presentation, Miss Margaret Bolin as King Richard and Marie Brady as Ratcliff. The senior girls then delighted the audience with some Greek fantastic and tableau movements and the whole ended with a presentation of the scene of the "Ten Virgins," Miss Ella Reilly acting as bridegroom and the following other young ladies assisting: Misses Margaret Cunniff, Mayme Cullen, Anna Caulfield, Marie Brady, Vivian Reilly, Mamie Saunders, Ida McGinnis, Edith McCulloch, Margaret Bolin and Sadie Koop. Graham's orchestra furnished the music and it was excellent.

Special mention is due Miss Cullen, Miss M. Saunders and Miss Margaret Bolin. Miss Cullen's piano solo was by far the best musical number on the program, Miss Saunderson's recitation was very good and Miss Bolin's work in the presentation of King Richard's dream, was excellent. Great credit is also due Miss Rachel Johnson, of Duluth, who acted as accompanist. She is a former pupil of the St. Benedict sisters.

Worst of all Experiences. Can anything be worse than to feel that every moment will be your last? Such was the experience of Mrs. S. H. Newson, Duquoin, Ala. "For three years" she writes, "I endured insufferable pain from indigestion, stomach and bowel trouble. Death seemed inevitable when doctors and all remedies failed. At length I was induced to try Electric Bitters and the result was miraculous. I improved at once and now I'm completely recovered." For liver, kidney, stomach and bowel troubles Electric Bitters is the only medicine. Only 50c. It's guaranteed by H. P. Dunn & Co., druggist.

## MUSIC AND DRAMA.

"FEDORA". The eminent actor, Melbourne MacDowell, and the distinguished actress, Florence Stone, supported by the Melbourne MacDowell company will be the attraction at the Brainerd opera house, Friday night, June 12th and will present for the first time in this city the late Fanny Davenport's greatest success Sardou's "Fedora." Mr. MacDowell will be remembered by many from his long association as joint star with Miss Davenport, his wife, and later as co-star with Blanche Walsh. Miss Stone is said to be one of the best of the later generation of actresses. The company is said to be an excellent one and that the names of four prominent leading men and three leading ladies are in the cast exclusive of the stars.

NEW UNIFORMS ARRIVE. □

Sixty Uniforms and Sixty Campaign Hats Secured by Capt. J. M. Heffner for Company F.

Capt. J. M. Heffner is busy these days equipping Co. F with new outfits all around and getting the company matters into shape and it is no small task. He made a requisition some time ago for some new uniforms and a day or two ago they arrived. There are sixty of them with sixty campaign hats. This now gives Capt. Heffner an equipment for 150 men if necessary.

The brigade consolidated report on attendance for the month of April, prepared from the reports in the office of the adjutant general gives Company F the average attendance at drill of 29. This is pretty good considering the company at that time was in such a depleted condition.

One week from next Monday the summer encampment season of the national guard opens at Lake City. On that date the Third regiment, Colonel C. A. Van Duzee commanding, and the First battalion of artillery, Major George C. Lambert commanding, will arrive. Their stay will be for eight days.

The question of giving receptions to the different commands this year is a perplexing one, as there will be seven different receptions necessary, including the three regular organizations. No plans have been completed as yet.

TOURNAMENT NOTES.

The State Firemen's Association and Tournament will be held in Brainerd June 9, 10 and 11.

The state badges for the firemen's tournament arrived in the city yesterday. They are beauties.

A crew of the firemen were busy yesterday afternoon and last evening decorating the band stand on the corner of Front and Sixth streets. This band stand will be about the center of attraction during the tournament and it is from there that the Marine band will discourse music during the three days.

Several Minneapolis and St. Paul companies will be present at the tournament. They have made arrangements for hotel accommodation here already.

On the evening of the 11th the play "Caprice" will be put on again and the firemen are out selling tickets for the event.

Banners are to be stretched across the corner of Laurel and Sixth and the work of trimming them will commence in a day or two.

Everybody is getting ready to decorate and Brainerd will present a gala appearance by Tuesday.

The State Firemen's Association will hold its annual convention in our city next week and several hundred delegates are expected to be in attendance, besides many other visiting firemen, who will be our guests during the convention. The city should be in gala attire for the occasion, and our business men and citizens generally are requested to appropriately decorate their premises. Let us as citizens do all in our power to assist the local firemen in making the 31st annual convention of the firemen of the state a memorable one.

## FEW FIRES LAST YEAR.

Chief Fire Warden C. C. Andrews Makes His Annual Report to State Auditor Iverson on Forest Fires.

General C. C. Andrews, chief fire warden, had made his annual report to State Auditor Iverson, who is forest commissioner. He states that fires in 1902 were few, on account of the wet season. There were thirty-four forest fires, mostly on brush and cut-over land. They burned over 18,285 acres, and did damage to the amount of \$3,820. Eight of them were caused by clearing land three by locomotives and two from burning meadows. There were forty-six prairie and field fires, burning 31,928 acres and doing damage to the amount of \$12,318.

General Andrews urges the women's clubs to interest themselves in forestry, as they have done in Pennsylvania. In summarizing the situation he says:

"The fact that we have in this state 15,000,000 acres of good agricultural land not yet under cultivation, and that cheap lumber will promote its development; that our population increases 18 per cent each decade; that its value has risen 25 per cent in the last twenty years; that our home supply of original pine timber will, in a few years, be exhausted; that lumber is already being brought into the state from the Pacific coast at the rate of 130 carloads per day, and the cost of transportation for which averages \$13.50 per 1,000, board measure; that out of centuries of experience European states instruct and warn us it is clear beyond any doubt that the sooner we begin in a systematic way to reforest our waste lands the better it will be for the welfare of the state."

Venice's New Campanile.

Venetians are promised their new tower in three years' time. They and their foreign friends have subscribed \$60,000 toward the expense, and the government has voted a further sum. The foundations of the old tower have been found to be in excellent condition, and it is on them that the new campanile is to be raised. Signor Beltrami of Milan is the architect, Signor Boni, who had been at first appointed, having elected to remain in Rome, in charge of the excavations in the Forum.

# LABOR ORGANIZATIONS CELEBRATED THE VICTORY

## N. Shop Employees Hold a Big Grand Street Parade

### CELEBRATING VICTORY

## Of Machinists in the Big Strike on the Union Pacific

Just as an illustration of what kind of laboring men Brainerd has, and the spontaneous manner in which they respond to the sentiments of the victories of union labor throughout land, the large demonstration on the streets of city this afternoon served its purpose admirably and the event is indicative of the power that there is in the labor organizations in this city. In almost the twinkling of an eye a parade was arranged that has seldom ever been equalled in the city.

The event was a sort of jollification over the victory of the machinists in the big strike on the Union Pacific. Laboring men all over the land have been watching the progress of this strike with great interest, and when the announcement that the strike had been settled, and that the machinists had won a victory there was a general good feeling throughout the land. This morning at 11:30 o'clock the shops in this city were closed and from that time until way after the noon hour the booming of a cannon was heard throughout the city, although no one at the time except the union men knew what it meant. This afternoon there was a mammoth parade and there were fully eight hundred or one thousand men in line.

The general executive board of the International Association of Machinists, which has been conferring with the management of the Union Pacific for

some time in an endeavor to settle the difficulties between the company and the machinists, have been successful. The strike has lasted eleven months, and the 1,000 men who have been involved will return to work Monday next.

By the terms of settlement the machinists secured the following concessions: Abolition of piecework; a nine-hour day; an increase of 7 per cent in wages over the scale prevailing at the time of the beginning of the strike, every striking machinist to be reinstated upon his own application within sixty days, the company to retain such of its present force as it desires on equal terms with the old employees. By the terms of settlement it will be seen that both parties to the controversy made numerous concessions.

The general executive board consists of Hugh Doran of Chicago, E. L. Tucker of Washington, D. C.; James A. Reynolds, Cleveland, Ohio; Henry F. Geritt, Atlanta, Ga., and M. J. Ford, New York.

The big parade was headed by the Brainerd city band. A large banner was carried with the word "Victory" painted in large black letters, and as the men marched along they were cheered by the crowds which had gathered on the streets. Another large banner bore these words, "We Fought to Teach the Young."

The shops were closed down almost entirely, the foundry closed at noon and nearly every labor organization in the city joined in the demonstration. The parade was seven blocks long and there was a representation of nearly all unions in line.

After the parade the crowd gathered about the band stand on the corner of Front and Sixth streets and Rev. S. W. Hoyer, now a helper in the machine shops in this city himself, delivered a stirring address. He was cheered again and again and at the conclusion was warmly congratulated.

A banquet was arranged for and later in the evening in which the unions will all partake and it is expected that some rousing speeches will be heard then.

## WAS A GREAT SUCCESS.

Brainerd Opera House Comfortably Filled  
on Event of First Festival of Music

by St. Benedict Sisters' Pupils.

The Brainerd opera house was very comfortably filled last night, the event being the festival of music given by the music pupils of the St. Benedict Sisters. The program was a long and varied one and almost every number was heartily enjoyed. The young people, many of them mere tots, showed evidence of having been trained by master hands, and their future development can be appropriately measured by the excellence of the numbers and their rendition.

The program opened with a piano duet, "L'Angelus," by Miss Irene Koop and Master Earl Koop. The little people were given hearty applause at the conclusion. Another excellent piano duet by the Misses Agnes and Eveline McCarthy followed. A piano trio, Galop Venitien, by Masters William Wallace and Albert Durham and Miss Agnes McCarthy was heartily enjoyed. Two more piano duets followed, "May Breezes" by Misses Edith and Flora McCullough and "Invitation to the Dance" by the Misses Mamie and Gertrude Koop. A piano duet, German Patrol, by the Misses Eleanor and Mamie Saunders, was heartily enjoyed.

Then followed another piano trio by the Misses M. Saunders, May McFadden and Selma Martella. Miss Nellie Mahoney rendered a piano solo in an excellent manner. Maurice Mantor and Charles Howe delighted the audience with a piano duet, "Gypsy Dance" and this was followed by a vocal solo by Miss Ethel Saunders, which was well rendered. Miss Mayne Cullen was heard to good advantage in a piano solo and the same young lady with Miss Bolin gave a splendid piano duet. A diversion from the first part of the program was enjoyed when Miss Edith McCullough gave a recitation, "Miss Incurable" and it was one of the pleasant numbers on the program. Miss Vivian Reilly also gave a recitation "How We Hunted a Mouse" and this was also one of the bright spots in the program. Another piano duet by Misses Bolin and Caulfield and a recitation by Miss M. Saunders, "Mandy's Conversion," by far the best number on the program, and the first part was over.

The second part consisted of a pantomime, "The Annunciation," by Miss Margaret Cunniff which was par excellence. Little Miss Kathleen Graham gave a vocal solo and she did so well that she was compelled to respond with an encore. She has a sweet voice and sings beautifully. The comic song, "Kentucky Babe," by Miss Vivian Reilly and a chorus made a great hit. Easily one of the best things on the program was the gossip pantomime by several little tiny girls. They were dressed as old grandmas and went through the various parts with perfect ease and grace. "King Richard's Dream" was given a very creditable presentation, Miss Margaret Bolin as King Richard and Marie Brady as Ratcliff. The senior girls then delighted the audience with some Greek fantastic and tableau movements and the whole ended with a presentation of the scene of the "Ten Virgins," Miss Ella Reilly acting as bridegroom and the following other young ladies assisting: Misses Margaret Cunniff, Mayne Cullen, Anna Caulfield, Marie Brady, Vivian Reilly, Mamie Saunders, Ida McGinnis, Edith McCullough, Margaret Bolin and Sadie Koop. Graham's orchestra furnished the music and it was excellent.

Special mention is due Miss Cullen, Miss M. Saunders and Miss Margaret Bolin. Miss Cullen's piano solo was by far the best musical number on the program, Miss Saunders' recitation was very good and Miss Bolin's work in the presentation of King Richard's dream, was excellent. Great credit is also due Miss Rachel Johnson, of Duluth, who acted as accompanist. She is a former pupil of the St. Benedict sisters.

Worst of all Experiences.  
Can anything be worse than to feel that every moment will be your last? Such was the experience of Mrs. S. H. Newson, Ducator, Ala. "For three years" she writes, "I endured insufferable pain from indigestion, stomach and bowel trouble. Death seemed inevitable when doctors and all remedies failed. At length I was induced to try Electric Bitters and the result was miraculous. I improved at once and now I'm completely recovered." For liver, kidney, stomach and bowel troubles Electric Bitters is the only medicine. Only 50c. It's guaranteed by H. P. Dunn & Co., druggists.

## MUSIC AND DRAMA.

"FEDORA."

The eminent actor, Melbourne MacDowell, and the distinguished actress, Florence Stone, supported by the Melbourne MacDowell company will be the attraction at the Brainerd opera house, Friday night, June 12th and will present for the first time in this city the late Fanny Davenport's greatest success Sardou's "Fedora." Mr. MacDowell will be remembered by many from his long association as joint star with Miss Davenport, his wife, and later as co-star with Blanche Walsh. Miss Stone is said to be one of the best of the later generation of actresses. The company is said to be an excellent one and that the names of four prominent leading men and three leading ladies are in the cast exclusive of the stars.

Sixty Uniforms and Sixty Campaign Hats Secured by Capt. J. M. Heffner for Company F.

Capt. J. M. Heffner is busy these days equipping Co. F with new outfits all around and getting the company matters into shape and it is no small task. He made a requisition some time ago for some new uniforms and a day or two ago they arrived. There are sixty of them with sixty campaign hats. This now gives Capt. Heffner an equipment for 150 men if necessary.

The brigade consolidated report on attendance for the month of April, prepared from the reports in the office of the adjutant general gives Company F the average attendance at drill of 29. This is pretty good considering the company at that time was in such a depleted condition.

One week from next Monday the summer encampment season of the national guard opens at Lake City. On that date the Third regiment, Colonel C. A. Van Duzee commanding, and the First battalion of artillery, Major George C. Lambert commanding, will arrive. Their stay will be for eight days.

The question of giving receptions to the different commands this year is a perplexing one, as there will be seven different receptions necessary, including the three regular organizations. No plans have been completed as yet.

## TOURNAMENT NOTES.

The State Firemen's Association and Tournament will be held in Brainerd June 9, 10 and 11.

The state badges for the firemen's tournament arrived in the city yesterday. They are beauties.

A crew of the firemen were busy yesterday afternoon and last evening decorating the band stand on the corner of Front and Sixth streets. This band stand will be about the center of attraction during the tournament and it is from there that the Marine band will discourse music during the three days.

Several Minneapolis and St. Paul companies will be present at the tournament. They have made arrangements for hotel accommodation here already.

On the evening of the 11th the play "Caprice" will be put on again and the firemen are out selling tickets for the event.

Banners are to be stretched across the corner of Laurel and Sixth and the work of trimming them will commence in a day or two.

Everybody is getting ready to decorate and Brainerd will present a gala appearance by Tuesday.

The State Firemen's Association will hold its annual convention in our city next week and several hundred delegates are expected to be in attendance, besides many other visiting firemen, who will be our guests during the convention. The city should be in gala attire for the occasion, and our business men and citizens generally are requested to appropriately decorate their premises. Let us as citizens do all in our power to assist the local firemen in making the 31st annual convention of the firemen of the state a memorable one.

## FEW FIRES LAST YEAR.

Chief Fire Warden C. C. Andrews Makes  
His Annual Report to State Auditor  
Iverson on Forest Fires.

General C. C. Andrews, chief fire warden, had made his annual report to State Auditor Iverson, who is forest commissioner. He states that fires in 1902 were few, on account of the wet season. There were thirty-four forest fires, mostly on brush and cut-over land. They burned over 18,285 acres, and did damage to the amount of \$3,820. Eight of them were caused by clearing land three by locomotives and two from burning meadows. There were forty-six prairie and field fires, burning 31,928 acres and doing damage to the amount of \$12,318.

General Andrews urges the women's clubs to interest themselves in forestry, as they have done in Pennsylvania. In summarizing the situation he says:

"The fact that we have in this state 15,000,000 acres of good agricultural land not yet under cultivation, and that cheap lumber will promote its development; that our population increases 18 per cent each decade; that its value has risen 25 per cent in the last twenty years; that our home supply of original pine timber will, in a few years, be exhausted; that lumber is already being brought into the state from the Pacific coast at the rate of 130 carloads per day, and the cost of transportation for which averages \$13.59 per 1,000, board measure; that out of centuries of experience European states instruct and warn us it is clear beyond any doubt that the sooner we begin in a systematic way to reforest our waste lands the better it will be for the welfare of the state."

# MACHEN IS INDICTED

CHARGED WITH SHARING PROF-  
ITS ON CONTRACTS FOR THE  
BOX FASTENERS.

## EXPLAINS TO HIS FRIENDS

ACCUSED MAN SAYS CERTAIN  
CHECKS WERE FROM HIS BUS-  
INESS PARTNER.

Washington, June 6.—The grand  
jury Friday reported an indictment  
against A. W. Machen, former superin-  
tendent of the free delivery service  
of the postoffice department, who was  
arrested several days ago, charged  
with sharing profits on government  
contracts for letter box fasteners. The  
indictment was brought for violation  
of Section 5501 of the revised statutes,  
the penalty for violation of which is a  
"fine of not more than three times  
the amount asked or accepted or re-  
ceived, and by imprisonment of not  
more than three years."

The amount which the indictment  
states he received illegally is \$18,  
987.79. Mr. Machen was in court  
with his attorneys when the grand  
jury reported and immediately gave  
bond in the sum of \$20,000 for his ap-  
pearance in court. His sureties were  
O. G. Staples, David Moore, F. M.  
Criswell and Emanuel Speich of this  
city. The trial will occur in October.  
By securing an indictment against  
Machen before Saturday, the day set  
for his preliminary hearing before  
Commissioner Taylor, the government  
has scored a victory in that it has  
avoided the necessity of showing its  
hand at the preliminary hearing. The  
proceedings before the commissioner  
now will be abandoned.

## Checks From His Partner.

In discussing the case with his  
friends, Mr. Machen says that certain  
checks which it is maintained were  
sent to him in payment of his profits  
in the Groff fastener and which have  
been secured by the postoffice inspec-  
tors, were sent him by his former  
business partner, George E. Lorenz  
of Toledo, O., and formerly post-  
master of that city.

Mr. Machen claims that his partner-  
ship with Lorenz was a strictly legiti-  
mate one and that the checks trans-  
mitted to him by Lorenz were in con-  
nection with mining business which  
the firm conducted. Although the  
amount of these checks cannot be as-  
certained, Mr. Machen says that the  
one for the largest amount represents  
a personal loan to himself from Lorenz.  
Mr. Machen further states to his  
friends that he was not a partner of  
the Groff brothers concern and that  
he did not receive any of the profits  
from the sale of the letter box fasten-  
ers to the government. He says that no  
wrongdoing will be proved against  
him and that the only possible cause  
there may be for criticism of his ad-  
ministration so far as the Groff fast-  
ener is concerned is that the price  
paid for the article may be consider-  
ed excessive. This was necessary, he  
maintains, because the article was a  
patented affair.

It is expected by the postoffice de-  
partment that the grand jury will  
report on the cases of the Groff Broth-  
ers of this city, the contractors for the  
letter box fasteners, early next week.

## TWO MORE ARRESTS.

Clerk and Assistant Arrested For Con-  
spiring to Defraud Government.

Washington, June 6.—As a result of  
the sweeping investigation of affairs  
at the postoffice department, Thomas  
W. McGregor, clerk in charge of the  
supplies for the rural free delivery  
service, and C. Ellsworth Upton of  
Baltimore, one of McGregor's assis-  
tants, were arrested on the charge of  
conspiracy with Charles E. Smith of  
Baltimore to defraud the government  
in the purchase of the leather pouches  
furnished the rural carriers through-  
out the country. Their cases make  
seven arrests in all since the investi-  
gation began. Other arrests are ex-  
pected later.

The story of the arrest is best told  
in the following official statement giv-  
en out by Fourth Assistant Post-  
master General Bristow:

"Thomas W. McGregor and C. Ells-  
worth Upton were arrested Friday af-  
ternoon upon warrants sworn out in  
Baltimore by Inspectors J. D. Sulli-  
van and R. D. Simmons, charged with  
a conspiracy with Charles E. Smith  
and others to defraud the United  
States government in the purchase of  
pouches from C. E. Smith of Balti-  
more.

"The complaint sets forth that Mc-  
Gregor and Upton agreed with Smith  
to obtain for him orders for many  
thousands of leather pouches such as  
are used by rural letter carriers. The  
price agreed upon was 90 cents per  
pouch; the actual value was less than  
50 cents. Smith was to pay to them  
the difference between 90 and 50  
cents per pouch. It is stated at the  
department that the actual number of  
pouches which were purchased ex-  
ceeded 20,000, for which the govern-  
ment paid 90 cents each, or \$18,000 in  
all. Smith received and retained of  
this for his own use \$10,000. The  
remaining \$8,000 was paid to Mc-  
Gregor and Upton. The government  
could have bought the entire number  
of pouches from the manufacturers  
for \$8,000. McGregor was the clerk  
in charge of rural free delivery sup-  
plies and Upton was one of his as-  
sistants."

Both the men arrested are married.

# Mrs. Fred Unrath,

No. 228 Territorial Street, Benton Harbor, Mich.

"I am pleased to give my  
experience with Wine of  
Cardui as I am very grateful  
for its help. After my first  
baby was born I could not  
seem to regain my strength,  
although the doctor gave me  
a tonic which he considered  
very superior, but instead of  
getting better I grew weaker  
every day. My husband  
came home one evening with  
some Wine of Cardui and in-  
sisted that I take it for a week and see  
what it would do for me. As he seemed  
to have so much faith in it I did take the  
medicine and was very grateful to find  
my strength slowly returning. In two  
weeks I was out of bed and in a month I  
was able to take up my usual duties. I  
am very enthusiastic in its praise."

Mrs. Fred Unrath.

here, as are their ambitions,  
triumphs and defeats.  
Healthy women do not suffer  
miscarriage nor does  
a woman who is healthy  
suffer tortures at childbirth.  
It is the woman who is ail-  
ing—who has female weak-  
ness—who fears the ordeal  
of becoming a mother. Wine  
of Cardui builds up the wo-  
manly in a woman. It stops  
all unnatural drains and  
strains—irregularities which are re-  
sponsible for barrenness and miscar-  
riage. It makes a woman strong and  
healthy and able to pass through preg-  
nancy and childbirth with little suffer-  
ing. After the ordeal is passed the  
Wine prepares a woman for a speedy  
recovery to health and activity.
